

**miBed**<sup>®</sup>  
motion  
intelligent

... where comfort meets technology

*Furmanac have been a market leader in motion intelligence furniture since 1968 and are currently the UK's largest manufacturer of adjustable beds and motion bed frames.*

MiBed® are the only adjustable beds made entirely in one UK factory. The result is superior quality that your body will love, so you can utterly unwind and sleep blissfully. It's all about the base ...

**Adjust away any aches.** Each MiBed® base has Motion Intelligence to relieve minor aches and pains. You can adjust it to perfectly support different areas of your body.

**Healthier too.** Our beds improve circulation as you can adjust the angle you sleep at to put less pressure on your heart.

**The pressure's off.** You can adjust each bed to support your spine's natural contours. This gives you a healthier posture and relieves any pressure put on your joints, giving you a deeper, more restful sleep.

**Bespoke for a better nights sleep.** All our models have a high specification with optional enhancements so you can create a bespoke bed that's made just for you - page 28 onwards.

**The finest quality.** MiBed® mechanisms are robust, smooth and quiet, with built-in safety features exceeding both UK and European standards.

**Supreme comfort, 5-year Guarantee.** Exceptional design, excellent choice and extraordinary value: your MiBed® motion bed is your passport to sublime comfort and relaxation.

# Elite Base

Upgrade to an Elite Base for sublime levels of comfort with all these features as standard.

Bolt-on wireless controlled massage unit

Luxury chrome castors

Tension sliders and upgraded ventilation slats

Backlit wireless remote control with memory to store your favourite positions

Under-bed light

Raised suspension slats

The Elite base has a weight limit of 18 stone.  
For 18-25 stone, see our heavy duty frame on page 32.

## Executive Collection

This is a superior selection of mattress fillings to give you even more luxury and comfort. Just choose your mattress and your base - either an Executive MiBed® base, or upgrade to an Elite base. Then choose a headboard from pages 28-29.

Each Executive MiBed® has all these features as standard:

- **5 Part K Frame** for unique, customisable support to different areas of your body.
- **Sprung beech slats** with a natural 'give', offering you improved back support.
- **Emergency lowering motor** to lower the bed in the event of a power cut.
- **Ergonomic wireless remote control** to raise/lower the back, the feet or both.
- **Splash proof motor.**
- **Twin wheel castors** for smooth easy movement.
- **50+ fabrics available** - see the full choice of top quality Belgian damask covers at [www.furmanac.com](http://www.furmanac.com) or we can make it in your own fabric.

The Executive Collection beds can support users up to 18 or 25 stone.

# Executive Base

See the full choice at [www.furmanac.com](http://www.furmanac.com)

## Balmoral

- Luxurious Cashgora with natural wool and silk
- Choice of 1200 or 2150ct pocket springs
- Hand-tufted for greater support
- Features a summer and winter side
- Cotton viscose cover
- Breathable air vents
- 1200 supports weight to 18 stone; 2150 up to 25 stone

Our luxurious Balmoral mattress has a choice of 1200 or 2150 pocket springs. Remember: more springs = more comfort and strength. Tufted for a buttoned look and greater firmness, it's sumptuously soft with a blend of Cashgora, wool and silk fillings to help you sleep effortlessly. Plus, it has a warmer winter and cooler summer side - helped by the breathable air vents - so you feel comfortable all year round.

**1200 - Medium feel**

**2150 - Medium-Firm feel**

## Orford

- 50mm pure latex on 1200ct pocket springs
- Hand-tufted for greater support
- Cotton viscose cover
- Breathable air vents
- Supports weight up to 18 stone

Our top quality latex mattress means you're more comfortable, move less, sleep better and deeper. It also rejuvenates you, helping with your health and wellbeing. The Orford has a 50mm quality latex layer over a 1200ct pocket spring unit. It's beautifully button finished as the cotton viscose covered mattress is traditionally hand-tufted for a firmer feel. The breathable air vents also keep you cooler. The effect is simply blissful.

**Medium feel**

## Lewes

- 50mm memory foam on 1200ct pocket springs
- Hand-tufted for greater support
- Cotton viscose cover
- Breathable air vents
- Supports weight up to 18 stone

Our Lewes mattress helps you to sleep deeper as it has more pocket springs, plus a generous memory foam layer that instantly cushions, supports and eliminates any pressure points when you lie down and turn over. It has a soft touch cover, breathable air vents to keep you cool, plus it's hand tufted in the traditional way for a beautiful buttoned effect and a firmer feel.

**Medium feel**

# Executive Collection

## Bramber

Quick Ship  
Available

- 50mm of memory foam on 1000ct pocket springs
- Viscose quilted zip-off cover
- Foam encapsulated for edge-to-edge support
- Treated with Adaptive
- Supports weight up to 18 stone

The Bramber gives you a slightly firmer Medium feel than the Powis as it's completely encapsulated in foam for superior edge-to-edge support, so you won't roll off or feel your partner get out of bed. It has all the benefits of the Powis - the reactive memory foam on 1000 individual pocket springs, plus the soft touch viscose cover and the cooling, drying Adaptive sleep technology.

**Medium feel**

## Broncroft

- 50mm pure latex on 1000ct pocket springs
- Viscose quilted panel
- Treated with Adaptive
- Foam encapsulated for edge-to-edge support
- Supports weight up to 18 stone

The Broncroft has the same luxury cushioning as the Radcliffe with flexible latex, softer touch viscose panelling, Adaptive treatment and pocket springs - 1000 of them here - but it has edge-to-edge support as it's completely encapsulated in foam. It feels even more comfortable with supportive cushioning ... so you unwind straight away. Plus, you sleep more soundly with less movement when you or your partner turns or gets out of bed.

**Medium feel**

## Conwy

Quick Ship  
Available

- 50mm memory foam on reflex foam
- Viscose quilted zip-off cover
- Treated with Adaptive
- Supports weight up to 18 stone

The Conwy has all the Mitford's features, but with a softer, squashier feel, so you sumptuously sink into it as you drift off. So, like the Mitford, you also sleep better as the memory and reflex foam supports your contours; you stay cool and dry with its Adaptive sleep treatment; you can feel how soft the viscose quilted cover feels and you can keep it fresh as it zips off for washing.

**Soft feel**

## Mitford

Quick Ship  
Available

- 50mm memory foam on reflex foam
- Viscose quilted zip-off cover
- Treated with Adaptive
- Supports weight up to 25 stone

The Mitford gives you superb deep sleep as your contours are cushioned and supported by both the memory and reflex foam. You'll stay cool, dry and comfortable without overheating throughout the night as it's treated with Adaptive sleep technology. It feels softer to the touch as it has a viscose cover with a straight line quilted design. The cover zips off so it's easy to wash and keep it fresh.

**Firm feel**

# Executive Collection

## Witton

- 1000ct pocket springs
- Viscose knitted, quilted cover
- Breathable, fresh air vents
- Flag stitched handles
- Treated with Adaptive
- Supports weight up to 18 stone

The Witton is our great value, entry-level Executive mattress. It gives you a great night's sleep with individual supportive cushioning from 1000 pocket springs. You stay cool and dry as it has Adaptive sleep technology, plus breathable air vents. And the cover is both quilted and soft as it's knitted viscose. It never needs turning over: the extra strength flag-stitched handles makes rotating it from head-to-toe so easy.

***Soft-Medium feel***

## Powis

- 50mm of memory foam on 1200ct pocket springs
- Viscose quilted zip-off cover
- Treated with Adaptive
- Breathable air vents
- Supports weight up to 18 stone

The Powis combines the best of the Mitford and Conwy. It still has the same contouring memory foam, the soft touch viscose cover and the cooling, drying Adaptive sleep technology. But it's even more comfortable and supportive as the memory foam sits on 1200 pocket springs that individually flex to perfectly cushion and support your body every time you move. It also keeps you cooler as it has breathable air vents.

***Soft-Medium feel***

## Radcliffe

- 50mm pure latex on 1200ct pocket springs
- Viscose quilted panel
- Breathable air vents
- Treated with Adaptive
- Supports weight up to 18 stone

The Radcliffe is a classic British design from start to finish. It's softer, more yielding and even more comfortable with a luxuriously soft viscose quilted panelling. It's naturally pliant thanks to the latex layer that rests on 1200 pocket springs that individually respond to your every movement. You'll sleep better and stay cool, dry and comfortable as it has Adaptive sleep technology.

***Soft-Medium feel***

## Walden

- 50mm of memory foam on 1000ct pocket springs
- Breathable air vents
- Foam encapsulated for edge-to-edge support
- Treated with Adaptive
- Hand-tufted for greater support
- Supports weight up to 25 stone

The Walden gives you a great sleep every night as its memory foam and 1000 pocket springs support you and respond to your every movement. It has a slightly firmer feel than latex mattresses as it's hand tufted for a beautiful button finish and completely encapsulated in foam for superior edge-to-edge support. It keeps you cool, dry and comfortable as it has breathable air vents, plus Adaptive sleep technology.

***Medium feel***

## Worcester

- Layers of natural wool and silk
- 1200ct or 2150ct pocket springs
- Hand-stitched for added support
- Breathable air vents
- Supports weight up to 18 stone

The Worcester is our top quality Executive mattress with sumptuous layers of luxurious top quality fillings, including natural wool and silk and has meticulously hand-stitched sides for supreme support. So you'll enjoy blissful sleep and wake refreshed and rejuvenated. It has your choice of 1200 or sheer indulgence 2150 pocket springs. The Worcester is the final word in luxury sleeping.

***1200 - Medium feel;  
2150 - Medium-Firm feel***

## Pocket Spring

It's the superior quality foundation for almost all our mattresses. 100s of individual springs in fabric pockets give perfect independent support to your body's contours. With 2 or 3x more springs = more comfort and support. So you won't roll-together, roll off or disturb your partner as you turn or get out of bed.

## Memory Foam

Experience weightlessness with this space-age comfort, originated by NASA to absorb G-forces. Memory foam eases achy joints, pains and pressure points, maximising comfort and support for your neck, shoulders and legs by moulding itself to your contours. It gives you orthopaedic and other health benefits, so you sleep better. Firmer than latex, it reduces tossing and turning by up to 80%.

## Latex

Latex has a natural elasticity and feels springier than memory foam. It perfectly cushions and supports your contours easing pressure points that make you toss and turn. You'll have a more comfortable sleep as it's excellent at 'breathing', reducing heat and controlling moisture. It regulates the temperature better than any foam mattresses. Healthier too, especially for allergy and asthma sufferers as it's hypoallergenic and antimicrobial.

## Adaptive Fabric

This specialist treatment transforms your sleep by wicking away and evaporating moisture. This keeps you cooler and dryer throughout the night, so you sleep better as you're not overheating.

# GeAir

COLLECTION

Drift off in comfort, wake up refreshed

# GelAir Collection

Keep cooler and enjoy deeper, more comfortable sleep every night. All these mattresses have these main benefits:

- Heavy knitted, deep quilted zip cover, infused with thermal gels
- 50mm GelAir foam

Open cell design keeps you dry and cool by wicking away moisture and heat

Adapts to your body's curves to relieve pressure points

Resilient and hardwearing, for long lasting support

## Cool Gel Support

- The main benefits plus 100mm support foam

Keep cool and carry on sleeping. That's the beauty of this bed. If you struggle to sleep because you're too hot or you feel pressure on your joints, limbs and back, then this bed is for you.

***Firm feel***

## Cool Gel Lux

- The main benefits plus 150mm support foam
- Foam encapsulated for a firmer edge

It has a deeper level of foam for a softer, squashier feel, so it will feel like your old favourite bed from day one.

***Soft feel***

## Cool Gel Ultra

- The main benefits plus 100mm support foam

Our top quality Gel mattress gives you exceptional levels of luxurious comfort and support as it also sits on an extra layer of 1000ct pocket springs that react in harmony to your contours and your every move.

***Soft-Medium feel***

## Essential Collection

These are our most affordable beds and much better than a traditional bed. They're full of essential quality, comfort and style, plus they have all the benefits of Motion Intelligence advanced adjustable technology ...

Each Essential MiBed® base has it's own unique fabric, plus all these features as standard:

- **5 Part K Frame** for unique, customisable support to different areas of your body.
- **Sprung beech slats** with a natural 'give', offering you improved back support.
- **Emergency lowering motor** to lower the bed in the event of a power cut.
- **Ergonomic wired handset** to raise/lower the back, the feet or both.
- **Splash proof motor.**
- **Twin wheel castors** for smooth easy movement.

The Essential Collection beds can support users up to 18 or 25 stone.

The Launceston gives you greater support. It has a Firm feel thanks to the reflex foam that cushions and supports your contours in a similar way to memory foam, but is ideal for more orthopaedic mattresses. Plus, it supports even more than both the Hylton and Wentworth, up to 25 stone. The zip-off cover makes it easy to wash, keep fresh and stay looking its best.

Mattress only or  
Mattress & Base

- Reflex foam mattress
- Zip off cover
- Non-slip base panel
- Supports weight up to 25 stone with the Heavy duty base upgrade

# Launceston

*Firm feel*

The Wentworth has the same extra strength flag stitched handles so it's easier to turn; breathable air vents to keep you cool, plus 800 pocket springs to give you luxurious cushioning and support so you'll sleep wonderfully. But it goes one better: its plush layers are hand-tufted for a gorgeous button effect. This also gives greater support, so the Wentworth has a Medium feel.

Quick Ship  
Available

Mattress only or  
Mattress & Base

## Wentworth

- 800ct pocket spring unit
- Hand tufted for greater support
- Fresh air ventilators
- Flag stitched handles
- Supports weight up to 18 stone

*Medium feel*

Exceptional value for money, this entry-level mattress and base set still has 800 pocket springs to luxuriously support you to give you great sleep. Plus it has a soft touch knitted cover, quilted in a stylish straight line. The fresh air ventilators let the mattress breathe so you keep cooler. Plus flag-stitched handles give it extra strength. It never needs flipping over, just rotating from head to toe.

Mattress & Base only

- 800ct pocket spring unit
- Knitted panel fabric, quilted, straight line design
- Fresh air ventilators
- Flag stitched handles

*Soft-Medium feel*

Hylton

# Four Part Surrounds

A stylish alternative to the traditional divan-style bed bases.

40+ fabric swatches available,  
visit: [www.furmanac.com](http://www.furmanac.com)

- All surrounds are easy to move and assemble as they only have 4 parts

- Special sizes available on this model

Deluxe

# Four Part Surrounds

- All surrounds have an integral, fully upholstered head- and foot-board

- All surrounds are perfectly complemented by any MiBed® mattress

Orpington

# High/Low Bed

Shown on skittle legs

- 5 part adjustable profile with integral raise and lower facility
- 4 motors: 2 for profiling and 2 for lift
- 350mm lift maximum
- Weight adjuster zone
- Load bearing points, bolted and sleeved

**Ideal for you and them.** Our top quality High/Low profile beds have 5 adjustable sections to especially benefit both home care and for care homes, helping both individuals with special needs and their carers.

**Easier to get in and out of bed.** With the motors you can raise or lower the whole bed frame to the perfect height, so getting in and out of bed unaided is easier.

**Choose the perfect comfortable angle.** Raise the head/backrest, plus raise the leg section - the knee break helps prevent you sliding down the bed.

**Optional hoist** can help you move and turn to ease any pressure points - see page 33.

**High/Low beds** are available on skittle legs, minimum height 8", or a full divan base. They can support weights up to 18 stone.

# Headboards

Ealing

Quick Ship  
Available

Littleton

Hastings

Hampton

Roma

Harrow

Quick Ship  
Available

Soho

Milan

Lawrence

To perfectly complement your chosen MiBed<sup>®</sup>, just add any of our headboards in the same matching fabric. All our headboards are in standard bed widths.

Kingston

Ludlow

Preston

Penzance

Regent

Denton

Jackson

Chelsea

Bellingham

They are all either on struts or have a full-height option, with the exception of the Denton, Jackson, Kingston, Lawrence, Littleton, Penzance and Roma, which are only on extended legs.

All drawers have a standard 140mm height and 570mm length.

### End drawer sizes are as follows:

Bed size:	End drawer width:
2ft 6in	385mm
3ft Standard single	535mm
4ft	805mm
4ft 6 Standard double	955mm

### Side drawers:

Continental for only 2ft 6, 3ft and 3ft 6 beds

North/South split for 5ft and 6ft beds

Head: 535mm width.      Foot: 805mm width

First draw is positioned 19cm from the head base.

Small drawers, East/West split: 4ft, 4ft 6, 5ft, 6ft.

Head: 535mm width.      Foot: 535mm width.

All bases can be ordered in full depth at 13in - with 2in castors - or shallow depth at 8in with skittle legs at 3-10in high.

Shallow Leg options

## Knock Down

*For houses with limited access*

Our 2ft 6in and 3ft beds can be cut in half - known as Knock Down or KD - so they can be installed upstairs without any difficulty.

A KD bed arrives in three parts - the mattress and two base halves which have the adjustable actions bolted inside them.

Our 4ft and 4ft 6in bases are east/west split, so only the action will be cut in half.

## Heavy Duty Frame

For users weighing 18-25 stone, the frame on the single sized heavy duty base is made from metal, and is available for 2ft 6in, 3ft, 4ft and 4ft 6in width models.

Please note: Drawers are not available on a heavy duty base.

## Waterproof Mattress - Venus

Our Venus mattress has 50mm memory foam on a latex or reflex foam for a firm feel. The Venus also features a waterproof stretch cover that is 44% PU and 56% PA.

### Side Retaining Clip

This secures the mattress in place and reduces movement while the bed is in use.

### Cot Sides

Our cot sides help prevent the user from inadvertently rolling out of bed.

### Hoist

Our over-bed hoist helps with sitting up, getting in and out of bed - and when changing positions to improve comfort and ease pressure points.

### Reading Light

Our reading light can be attached to any of our headboards. It has a power button and a flexible adjustable neck so you can alter them to the perfect position.

### Grab Rail

Our heavy duty grab rail is ideal to help you get in and out of bed with ease, so it gives you both confidence and independence. It's easy to clean and made to fit your MiBed®.

Comes with underbed lighting

## Bolt-on Radio Frequency Massage unit

Give yourself the ultimate luxury of a massage in bed

- Backlit wireless remote control of the massage, MiBed® action and underbed lighting
- Memory feature so your MiBed® moves to your preferred pre-set position at the touch of a button
- Inbuilt facility to control your MiBed®
- Pulse/Wave/Constant massage options to suit you
- The remote handset also includes a handy torch

## Synchronise a pair of 2ft 6in or 3ft

If you have a 4 part surround with a pair of 2ft 6in beds (as a 5ft bed) or a pair of 3ft beds (as a 6ft bed), you can synchronise the motors so the adjustable motion applies to both mattresses.

You can also use this option if you have a one-piece 5ft or 6ft mattress.
